ADINA MARTINIUC

PROFILE

My name is Adina Martiniuc and I am 24 years old.I was born in Romania but moved to Italy when I was 9 and continued my school career there.I am currently in my last year of computer science university.
I consider myself a very patient, friendly and shy person. I like learning new things, especially in the IT field, and working with new people. At my school, I studied a lot abut the back end development but I enjoy the front end more.

EDUCATION

[School Name]

[Liceo Isaac Newton, Chivasso, Torino]

[University name]
[Università degli studi di Torino, Unito, Dipartimento di informatica]
[from 2017]

WORK EXPERIENCE

0 years. For now I have only worked on the projects and assignments my teachers gave me at university. So, since I enjoy learning new things and working with other people I would love to continue extending my knowledge out of university too and experience new things.

While, outside the computer science world, I worked as a customer-advisor for 4 months. I think it helped me a lot in becoming an even more 'open-minded' person and to develop my social skills as i was constantly interacting with new people.

SKILLS

The programming language I studied the most is Java and the one I enjoyed the most is javascript. I also studied PHP,HTML,CSS,XML,Ajax, Mysql and the office applications such as word, power point,excel.
